By turn on the handle (M),to make the top pole out as show.
- 5 As shown in the picture,fix board(K) and pole (P) on top pole with middle pole by 2pcs bolt(A).

- 6 As shown in the picture,fix the pole brace(U1,U2)on bottom pole and base by bolt(D1,D2,D3)and bolt(B1,B2,B3).
- 7 Fix the pad DD on braces U1, U2 by velcro as shown.

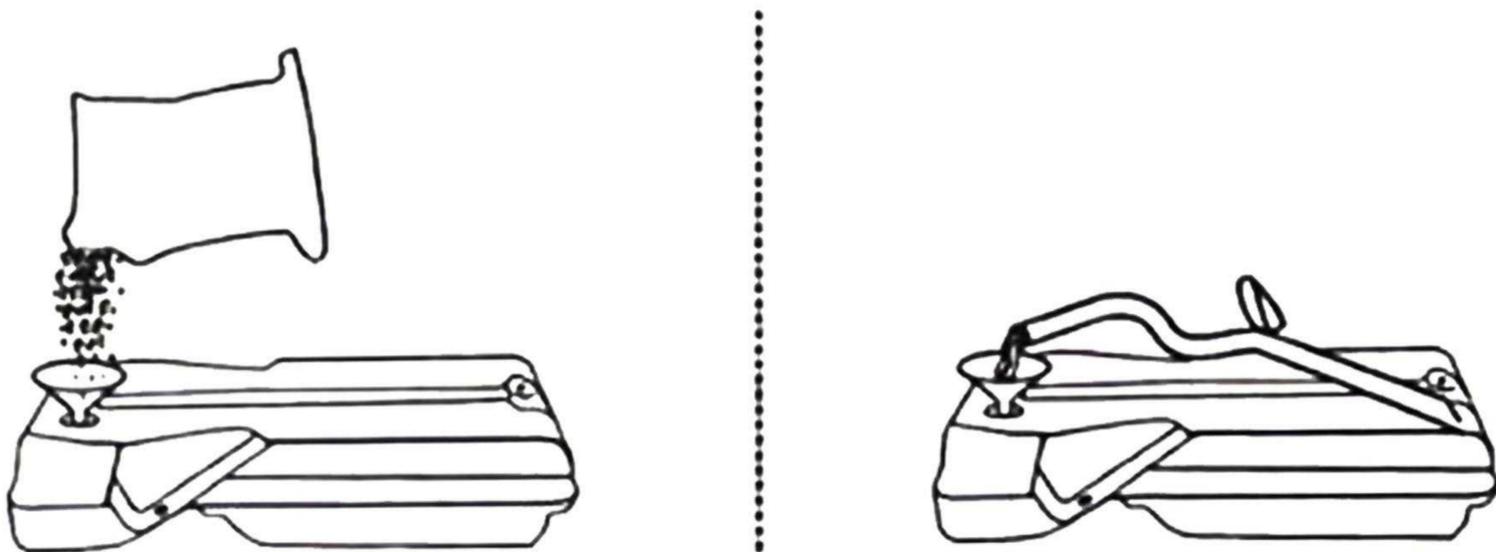

# ASSEMBLY

Attach the net to the hoop as shown.

# BASECOUNTERWEIGHT

Filling the Base with water or sand to keep steady

## Moving the system

- The system should be moved by at least 2 adults capable of handling its weight. Children should not be allowed to move the system.
- Stand in front of the system and pull the pole forward until the system is balanced on its wheels.
- Move the system to the desired location and carefully set the base down

## WARNING !!

FAILURE TO COMPLY WITH THESE WARNINGS COULD RESULT IN INJURY.  
FAILURE TO COMPLY COULD ALSO RESULT IN PROPERTY DAMAGE.

1. Never hang from the rim or climb on the pole as injury or property damage could occur. For these reasons do not perform dunking type activities on this system as it is not designed for such use. Do not allow children to climb on the basketball system.
2. Never leave the unit assembled without weight in the tank.
3. Check the base frequently for leaks or loose cap. Slow leakage could cause the system to tip over unexpectedly and damage the floor if used inside.
4. Seat the pole sections properly,. Not doing so might allow the pole sections to separate during play or during transportation for this system.
5. Further check before each use if all fittings and hardware are tight
6. Climate, corrosion or misuse could result in system failure.
7. This system is not intended for children 3 and under.
8. All players must use sufficient guards when playing.

## POLE CARE AND SYSTEM MAINTENANCE:

The life of your basketball system depends on many variables. The climate, exposure to corrosives such as salt, pesticides or herbicides and excessive use or misuse can all contribute to pole failure, which may cause property damage or personal injury.

Check your basketball system frequently for loose hardware, excessive wear and signs of corrosion. For safety reasons and to prolong the life of your basketball system, you must take the following preventive measures:

- Check all nuts and bolts. If any are loose, tighten them.
  - Check all pole sections for visible rust, chipped or cracked paint. If either are present, do the following
1. Use an emery cloth to completely remove any rust or chipped paint.
  2. Clean the area with a damp cloth and allow it to dry.
  3. Apply two coats of a rust preventative, high gloss enamel to the area. Allow the paint to dry between two coats.
